Please assemble the table **on a soft surface (e.g. a carpet or blanket)** to avoid damages.

**1.** Mount the frame cross: screw in the XS steel dowels, insert the connector housings, join the parts and fix the connection with grub screws.

**2.** Mount the legs to the frame cross. Assembly is easier when the table is upside down. Fix all grub screws on the bottom side of the frame.

**3.** Fix all grub screws on the top side of the frame.

**4.** Place the frame on the tabletop...

**5.** ...and mount it with cylinder head screws (tabletop 120x120 cm: 8 screws, tabletop 140x140 cm and bigger: 12 screws).
